Flagstaff, AZ, the US

Summary

A junior of international student in Environmental Engineering at Northern Arizona University. A student engineering which finished EGR-186 and CENE-180, still learning CENE-286. Be able to finish some primary engineering design, particularly using CAD, making plan and making some real design.

Education

- University: Northern Arizona University for degree (2015-2018)
- University: Henan University for degree (2013-2017)
- University: Chinese Culture University for exchange student (Spring 2015)
- Novitiate in Waste Incineration Plant (Summer 2015)
- High School: No.1 High School of Zhengzhou (2010-2013)

Area of Expertise

- Water resources
- Urban planning
- Control air pollution
- Structure design
- Team management

Engineering Skill

- Basic knowledge and skill of Civil 3D and AutoCAD
- Hands-on manufacturing capacity
- Gooding understanding about engineering design processes.

Personal experience

- Personal third of remote control rocket-propelled glider in 2010 China Youth Aerospace Championships
- Team title in 2010 China Youth Aerospace Championships
- Secretary of Overstep Garment Factory (Summer 2015)
- Forklift Driver of Triple Zhang Agricultural Machinery Factory (Summer 2014)
- UAV operator of Chang Plant Protection Company (Summer 2013)
