

1. Project introduction
 - 1.1. Project location
 - 1.2. Background
 - 1.3. Constrains
 - 1.4. Major Objectives
 - 1.5. Exclusions
 - 1.6. Team member roles
2. Field work
 - 2.1. Site investigation
 - 2.2. Demand Calculations
3. Preliminary Process
4. Clarifiers
 - 4.1. Primary
 - 4.2. Secondary
5. Primary Treatment
 - 5.1. Filtration
 - 5.2. Disinfection
6. Biosolid Management
7. Hydraulics
 - 7.1. Layout of NWTP
 - 7.2. Existing conditions
 - 7.3. Existing Hydraulic Analysis
8. Final Design Recommendation
 - 8.1. Final Design
 - 8.1.1. Preliminary Process
 - 8.1.2. Clarifiers

8.1.2.1. Primary

8.1.2.2. Secondary

8.1.3. Primary Treatment

8.1.3.1. Filtration

8.1.3.2. Disinfection

9. Impacts

9.1. Social

9.2. Economic

9.3. Environmental

10. Cost of Implementation

11. Conclusion

12. References

13. Appendices
