TASKS COMPLETED since last meeting:

Task Title: Design Review 3	Task Initiation: 03/12/2021	Orig. Due Date: 04/02/2021 @ Noon	Status: 100%
Who (%): Courtney: Requirements/Specs Review, Schedule Noah: Challenges and Resolutions, Testing Plan Ethan: Prototype Review, Conclusion, video editing Seth: Implementation Review, Testing Plan			
Description: Design Review 3 presentation which includes the prototype and testing plan. Currently unknown if this will be performed live or recorded.			
Expected Outcome: Record individual video segments as before and Ethan will piece them together with the slides. Each team member will be responsible for the slides/sections as listed above.			

Task Title: Fix issues for prototype demo redo	Task Initiation: 03/26/2021	Orig. Due Date: 03/29/2021 @ Noon	Status: 100%
Who (%): Noah: Fix archiving AT items, move the "add new" buttons to above the tables. Courtney: Move inventory to new page (from the index page), make displaying of entries in the table more efficient. Seth: Create new home page, make buttons in app look like buttons, make app lists easier to read. Ethan: Fix registration and login screens on app, let user select avatar.			
Description: These are mostly UI issues with the website and the app. Our team mentor has given us a second shot at the demo with UI fixes which we need to do anyway.			
Expected Outcome: Buttons for adding things in the website should be at the top of all tables. The site should have a home page and the inventory should be on a different page. Let admins archive AT on the site and make it obvious that they are archived. In the app, clickable areas were not obvious so we need to distinguish them. Listings were also hard to read because they had no spacing so we need to separate items in lists. The registration and login screens need titles to show what they are. App user needs to be able to select their user avatar.			

Task Title: Mobile App Issues	Task Initiation: 03/26/2021	Orig. Due Date: 04/02/2021 @ 14:00	Status: 100%
Who (%): Ethan: Complete issues #51 Seth: Complete issues #40, 58			
Description: Fix the issues assigned above. Check with team that issue has been resolved and then merge to master. #51: Let user see password they typed in #40: Fix bug with first time the app connects to website and freezes #58: Fix bug with adding to favorites not updating the button text			
Expected Outcome: As an issue is finished, the member will ask for review from the team. If approved, it will be merged to master and the issue can be closed in the issue tracker on GitHub.			

Task Title: Project Website Issues	Task Initiation: 03/26/2021	Orig. Due Date: 04/02/2021 @ 14:00	Status: 100%
Who (%): Seth: Complete issues #37, 35, 33			
Description: Fix the issues assigned above. Check with team that issue has been resolved and then merge to master. #33: Don't allow setting own account as inactive, gray out inactive accounts. #35: New admin username must be validated as email address #37: Prevent duplicate usernames that differ only in uppercase-lowercase			
Expected Outcome: As an issue is finished, the member will ask for review from the team. If approved, it will be merged to master and the issue can be closed in the issue tracker on GitHub.			

This week's Tasks: Work plan for coming week

Task Title: UGRADS Poster	Task Initiation: 03/26/2021	Orig. Due Date: 04/15/2021 @ Midnight	Status: 0%
Who (%): Ethan 75% (lead), Courtney 25%			
Description: Ethan will lead the design of the UGRADS poster. Courtney will help fill in content.			
Expected Outcome: The poster should follow the instructions on the Capstone website. A draft of the poster is to be discussed with team mentor before the UGRADS Symposium.			

Task Title: Update Team Website for UGRADS	Task Initiation: 04/02/2021	Orig. Due Date: 04/15/2021 @ Midnight	Status: 0%
Who (%): Courtney 100%			
Description: Add NAU IHD logo to home page next to sponsors and on sponsor page. If Fabio consents, add his photo next to his name on the home page and team page. When CAPSTONE demo segment is finished, add the video to the home page. Update team roles in team page. Add placeholders for all the remaining documents this semester. Update wording of accessibility in the requirements page after consulting with clients. Update wording of HIPAA description in the requirements page. Update the system diagram in the solution page to use the better diagram from DR2 or DR3. Update the Gantt chart in the schedule page and update description below it.			
Expected Outcome: All requirements are summarized here and tracked on our team Trello. All tasks are to be completed before the due date with placeholders in place for upcoming content.			

Task Title: UGRADS Presentation	Task Initiation: 04/02/2021	Orig. Due Date: 04/15/2021 @ Midnight	Status: 0%
Who (%): Ethan: Introduction, Conclusion, Architecture and Implementation, Future Work Courtney: Requirements/Spec Review, Schedule and Testing Noah: Solution Overview, Challenges and Resolutions Seth: Problem Statement, Demo			
Description: Each member will create video segments for each section that they are assigned as we've done with the Design Review videos. Each member will be responsible for the corresponding slides for their section. A dry run will be performed with the team mentor so each member should be prepared with their slides and script before then. Video segments will be uploaded to the team's Google Drive as usual.			
Expected Outcome: The final video must be completed AND submitted to the UGRADS site before the end of 04/15. The video needs to be uploaded as a raw video file and not a Youtube link.			

Task Title: Project Website Bug Fixes	Task Initiation: 04/02/2021	Orig. Due Date: 04/09/2021 @ 14:00	Status: 0%
Who (%): Courtney: Fixing issues #28, 34, 44, 45, 46 as mentioned in our GitHub issue tracker. Noah: Fixing issues #28, 42 as mentioned in our GitHub issue tracker.			
Description: Fix the issues assigned above. Check with team that issue has been resolved and then merge to master. #28: Reorganize the navigation bar on website #34: Database backups set to weekly and keep 4 weeks of backups #42: Add functionality for setting a suggestion as "reviewed" #44: Fix layout of forms for adding/editing entries for any of the tables #45: Admins need a form to edit the terms of service that get displayed in the app #46: Admins can set wording for relative prices			
Expected Outcome: As an issue is finished, the member will ask for review from the team. If approved, it will be merged to master and the issue can be closed in the issue tracker on GitHub.
