

HelloWorldByMe Design Review #1

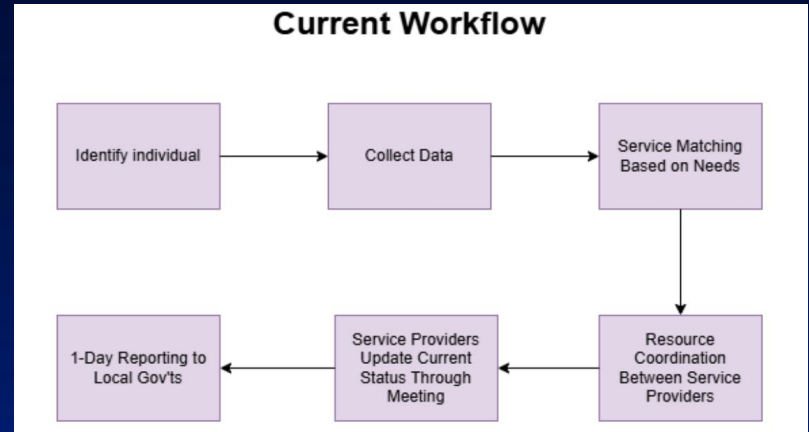

Elizabeth Knight, Joey Banaszak, Jessica Maldonado, Samantha Madderom

Client : Kevin Daily

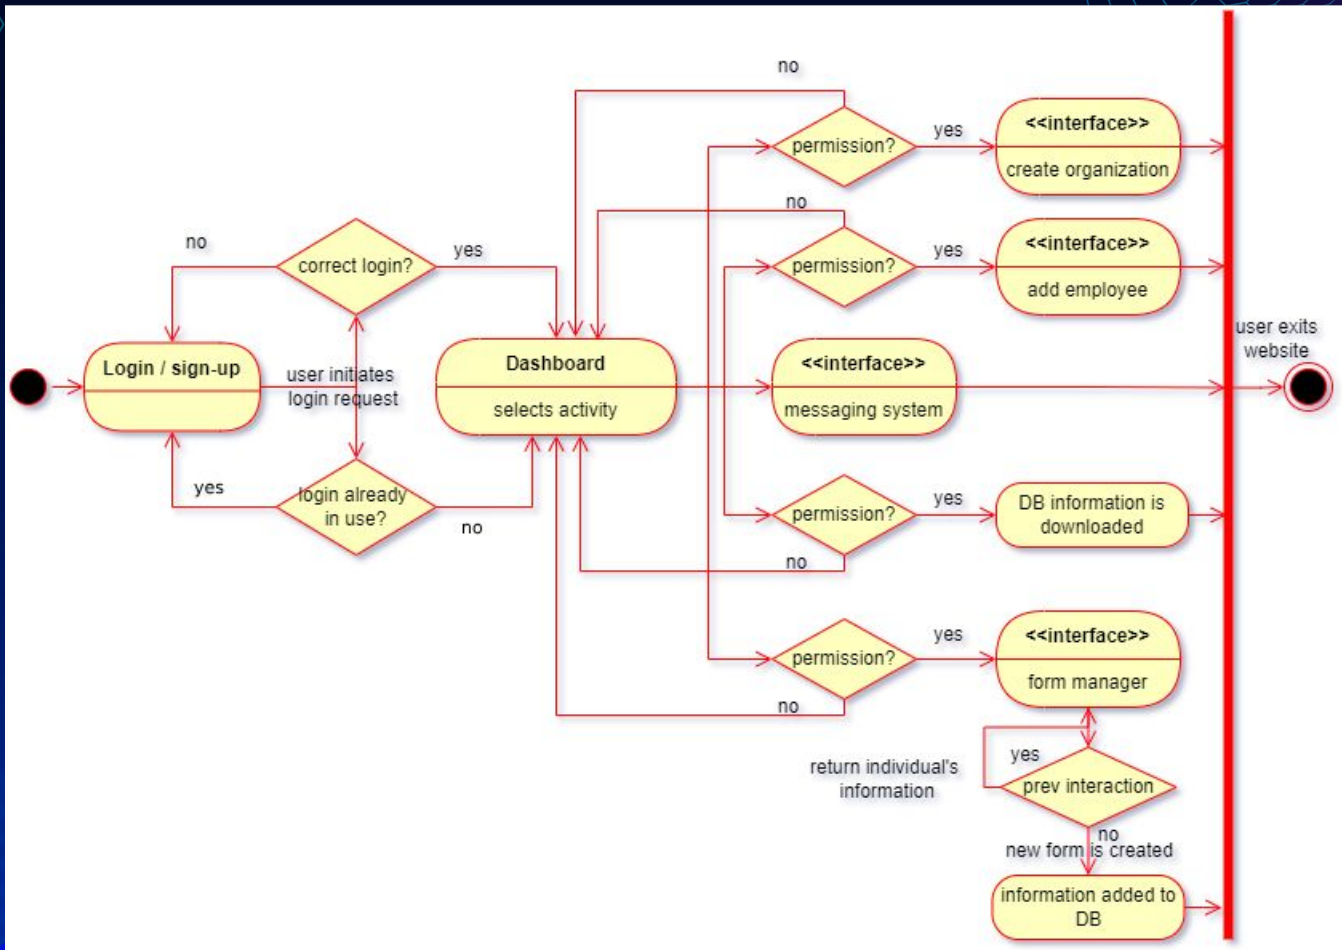

Faculty Mentor : Brian Donnelly

The Problem

- Tucson is facing increasing rates of homelessness, leading to inefficiencies in coordinating services for substance disorders and mental health.
- Misaligned system results in:
 - degraded data processing
 - limited resource access
 - inaccurate reporting, impacting funding decisions

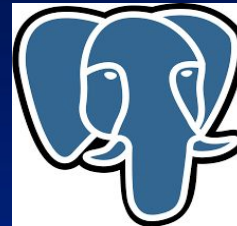

Our Solution

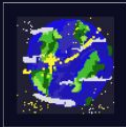

Key Requirements

- Query the database in real-time
- Security
- Create an organization
- Add new employees to the organization
- A system for employees to be able to communicate with each other
- Store information on individuals in need

Risks and Feasibility
