GO Baby Go Team A (14)

Meeting Minutes 8 and 9

This meeting was held in two sessions.

First session was on 3/7/2017 and the second session was on 3/19/2017

Attendance: Mohammad Aljuaidi, Sam Williams, Abdulrahman Almutairi, Ernes Distajo, and Abdullah Alajmi

Meetings were held in the EGR Building and SICCS building.

**First meeting:**

Stated at 3:45 pm and ended 6:30 pm

- Preparing for Midpoint presentation
- Organizing presentation slides as required in rubric
- Practicing couple times
- After completing our presentation, the team headed to SICCS building for GoBabyGo shop at 5:15 pm
- The team saw an example of frozen car
- TA showed us how to connect wires for frozen car
- After TA showed us all the steps, we redo it by ourselves
- We took notes for all the concepts learned at GoBabyGo shop to apply them to our car
- We ordered all the remaining parts before spring break to have it during spring break
  
- We planned to meet on 3/19/2017 to prepare for hard review 2

## **second meeting:**

The team met at Ernes's garage

Attendance: Mohammad Aljuaidi, Abdulrahman Almutairi, Ernes Distajo, and Abdullah Alajmi

Started at 4:00 pm and ended 6:10 pm

- We completed the code for turning and sensors
- We went to Home Depot to purchase the parts needed for wiring
- We connected the Arduino to the back and front motors
- We tested the steering buttons and the third button
- We placed kick bored (head rest) using pvs pipes
- After testing, the team planned to meet on 3/20/2017 at machine shop to put the final touch before hard review 2
