909-455-2232 | Flagstaff, AZ & Boise, Id aa3363@nau.edu

**Career Summary**

---

- I am a third year engineering student with decent and effective skills as far as working in diverse environments is concerned.
- I am of the pragmatic understanding that my personal attributes and professional ethics that I have been able to capture upto date are what place me at a better ground and position to serve in the job position as a mechanical engineer, product designer at the entry level of the institution.
- Over the past 3 years while in school, I have been engaged in diverse practical and demonstrative endeavors that I believe have made it possible for me to understand the salient needs and highlights that inculcate many engineering fields and platforms.
- In the few areas where I have been given the opportunity to serve as an intern or employee during school vacations, there are several strengths that I have demonstrated.
- They include a strong understanding of different fields, perseverance, keen to detail, and the ability to work in a group as well as independently.
- Regardless of the fact that I have only been in the school of engineering for three academic years now, I must state that the things I have learnt will make it possible for me to deliver quality work and services for the organization.
- In addition, it must be noted that I have a background in economics. In fact, while working in one of the most established auditing firms in the land four years ago, I was crowned as the most talented employee in view of the fact that I showed commitment and diligence in all the activities that I undertook.

**Education**

---

Name of Institution	Year Attended	Expected Graduation
1. Northern Arizona University B.S. in Mechanical Engineering	Spring 2016	May 2017
2. Boise State University	Spring 2013	-----
3. Cal Poly English Language Institute (CPELI)	Summer 2012	-----

**Computer Skills**

**January 2013 - May 2016**

---

- I am adequately proficient when it comes to using Microsoft Office.
- I can edit documents online with ease.
- Again, I have the skills to handle tasks that need the strict application of Microsoft Frontpage and Ariba as well.
- In essence, I am well-conversant with most computer applications, in terms of how they are to be used and their respective uses as well.

**Administrative Experience**

**August 2014 - December 2014**

---

- Upon commencing on my degree in engineering course, I was privileged to work as an intern in one of the most developed engineering plants in the land as a secretary.
- In this case, I was able to learn several highlights and ways of being a good manager.
- In view of the fact I served as a correspondence official on the one hand, it is rather notable that this aspect improved on my administrative capacities.

**Engineering Experience**

---

- As of now, it is rather true that I have a better scope of the theoretical underpinning that characterize engineering as opposed to the practical ones.
- However, I am sure that I will build upon this purview in the process of acting as a mechanical engineer, product designer of the institution.
