

Oct 4,2018

All team members, Jason& Dr. Traves

Time: 3:40-4:30

Location: learning resource center

Executive summary

We are meeting today with Jason and Dr. Traves to discuss about the project and present ideas to the client. We present our ideas to Jason he liked some of the ideas and advise us about what will suite this project. Jason has provided us with more information about the project. He told us about the motion of the project, the weight, and gear ratio if we want to design.

To accomplish

1. Find out if we want to redesign the project and if we want to we should come up with new design.
2. Figure out what spring will be better to use.
3. Find out the best location to place the springs
