1. Work on the technical analysis
2. Plan for next meeting

Executive Summary

In this meeting minutes, after we met Dr. Trevas we discussed with him the technical analysis that we are assigned for. Dr. Trevas gave us some ideas for our technical analysis.

Technical analysis Tasks

We discussed the technical analysis with Dr. Trevas, so he point out some analysis that we have to do in order to keep us in track with our project.

We have to focus on these analysis:

- How is the pneumatic system going to work?
- Adding more wheels to make the tank tread. Also, search about the existing tank treads.
- Make sure to know how is the controlling system is going to work?. If we are going to use the radio remote control, then we have to take care of the channels and the functions for that.

Plan for next meeting

Next meeting we will work on the presentation.
