ACTION ITEMS

TEAM: Team 4 Open Source 3D Printed Foot Prosthesis

Due Date:
Monday, May 06, 2019 5:30pm

The following are the Action Items from last week:

Team Member: Ali Abdullah

Action Item	Date Due	Date Completed	Result/Proof of Completion
(With Salman) we have completed the other parts of the design that was not created in the past such as creating the small pipe and the big pipe. We have also used McMaster website to crab the CAD of the screw and the cap nut. We have made an assembly of the whole design and then I have created a drawing of each part and a final drawing of the whole design associated with smaller bill of material. After that I have combined every drawing including the introduction page into one single pdf. After that I have zipped all the files including the longer bill of material that Salman did, and then submitted the zip file in bblearn on 05/03/2019	05/03/2019	05/03/2019	Submitted through bblearn by me on 05/03/2019
I have worked on sections 6 and 5 in the final report assignment. I have managed to edit the comments that were	05/03/2019	05/03/2019	Submitted through bblearn by Salman on 05/03/2019
