

Location: Willy's Office (324c)

Date: 11-1-18

Time: 6:45pm

Abstract: Client Meeting: Discuss side projects that have been worked on and go over deadlines

- Abdulaziz and Naser did not show up to the meeting and did not give any notice.

Riley

- Discussed his code for calculating power curve to Willy and asked about how to fix any problems
- Talked about airfoil selection

Faisal

- Asked about some of his equations that he needed for designing his yaw system

Tanner

- Talked about rocker slider brake design that Willy asked for
- Willy discussed testing the tensile strength of the carbon fiber reinforced nylon filament that we order to ensure it will not fail during testing
 - Talk to Perry about the best way to test tensile strength for plastics

Deadlines

- Have a first full scale CAD iteration of wind turbine by 11/15
- Have second iteration done by 11/21 along with a 3-page report to help describe changes made to the design

Meeting Adjourned: 7:45pm
