

Location: EGR Rm. 108 (Capstone Room)

Date: 12/4/18

Time: 6:30pm

Abstract: Discuss Final CAD Package and next semester due dates

- Prototype
 - The prototype presented to the class came out really good
- Final CAD package
 - After discussion with Willy, the nacelle needs an extra section to store electronics for the electrical team
 - The tower needs to incorporate the yaw bearing design
 - use deep groove ball bearings
- Due Date Reminder
 - Peer evaluations due on 12/11
 - The Post Mortem assignment is due when we come back from break
 - Discuss the team's success and what needs to be done in the future

Meeting Adjourned: 7:15pm
