

GROUP 1 STIRLING COOLER
MEETING MINUTES
Group meeting: SEP28, 2018

Member present: Luis, John, Ahmad

Announcements:

Team input:

- Team explained the concerns we have regarding displacer designs.
- Client was suggesting a few ways to use magnets within the displacer.
- Client was asking for every ones individual role in the project.
- Client tried to work out some Arduino codes.

Individual Progress:

Each of the team member is still working on the individual assignments in order to have it early and use it ASAP.

Future Direction:

We as a team will meet with Dr.Sharber from Department of electrical and computer engineering to get more information about Linear actuator and Arduino.
