Staff Meeting #7

Date: 07/24/18

Attendance: Kaled Aleweehan, Abdullah Almutairi, Omar Alotaibi and Abdullah Ben Gheyam

Discussion:

- We showed our client what we purchased for the prototype (copper pipe, copper cap, valve, cotton cloth, and thermometer w' thermocouple).
- Our client asks us how we will connect the pipe with the cap and we told him we will do it by fluxing.
- In addition, our vacuum pressure will arrive tomorrow (07/25/18) but we showed our Client the type we ordered, and he liked it.
- We found the band heaters at omega, but it takes 5 weeks to arrive so our client advises us to use candle as heat source.
- After that we present our website. Our TA gave us 2 comments:
 - 1- We have to add references in pictures we used in the gallery.
 - 2- We have to add our staff meetings in the website.

For Next Staff Meeting:

- Testing our Preliminary design.

NOTE: Waleed has an medical excuse and we told the client about that.
