

Meeting Minutes

Date: 4-30-2018

Time: 4:00

Topics:

1. Building of Prototype
 2. Organize all the parts
 3. BOM and final cad
-

Executive Summary

For this meeting we have decided to work on prototype as the design has finalized before and all the materials have finalized as well. To take the idea that the product we are building is useful or not.

Building of Prototype

For building the prototype, we've completed the final cad design to be sent to the cline library 3D printing office to print the project.

Organize all the parts

In the same meeting we discussed the uncertainty of the project being fully or partially printed.

BOM and final cad

The bill of material template was completed during the meeting and a team inspection on the final cad was done.
