

Meeting Minutes

Date: 7-16-2018

Time: 12:15-3:30 PM

Attended: All Team Members

Topics:

1. Hardware review 2
-

Executive Summary

This meeting was assigned to work on the hardware review 2 and ensuring that the team reach 90% of the analytical analysis work of this project. Then every member write his assigned section of the hardware paper.

Hardware review 2

As a team we met after the presentation to finish up the hardware review 2. We got useful feedback from the presentation audience and the team took this feedback into considerations. We came up with some beneficial ideas which helps improving the project safety such as adding rubber below the supporter base and adding extra sticks for the third supporter to ensure safety and balance in falling situations.
