

Staff Meeting 3/1/18

Purpose: Continued machining the exo parts

Attendees: David Trevas, Ethan Michel, Azalea Grant, Robert Libby, Brandon Begay, Hannah Rentschler.

Meeting Time: 2:30-4:00 pm

Minutes Recorder: Hannah

This week Azalea redesigned the pulley and t-bracket for the new position at the toe.

Hannah and Robert bench top tested the refined prototype that uses a chain and sprocket system to translate motion to the toe.

The benchtop model read torque correctly and actuated at the proper torque when specified.

Brandon researched where to buy stock metal and put in a parts order for the team

Ethan started designing the t-bracket attachment for the new design
