

Meeting Minutes

Date: October 6, 2017

Time: 6:00 pm – 10:00 pm

Attended: All the group were attended

Topics:

1. SolidWorks learning
 2. PreDdesign in SolidWorks
-

Executive Summary

In this minute meeting we have discussed about the SolidWorks software. We are going to use this software for developing the designs in it. In this meeting we did discussion on SolidWorks and develop the ideas in SolidWorks.

SolidWorks Learning

We have voted for the SolidWorks and found that all of the team members are well known about SolidWorks and everyone can work in SolidWorks as we are going to build the designs in SolidWorks that's why in this meeting we have discussed about building the designs in SolidWorks. A small tutorial of SolidWorks has given as well to overview of building 3D designs in it. There were some designs which have generated already but we have decided that we will come up with more ideas and will build all the ideas in the SolidWorks.

Design in SolidWorks

For the ideas to design in SolidWorks we have finalized that each person will make 3 to 4 designs in SolidWorks and all the designs must be 3D and write the explanation about each design as well. In case if someone will not able to properly build the designs in SolidWorks, he can take help from other members of the team and complete the task.
