

Meeting Minutes: Week 16

Attendance: All group Member

We are meeting at the engineering building to discuss about our project, and we already modeled the cart. It took so much because as group we said that we should give a great design with long life time That was one of errand today alternate undertakings are audit the last report each colleague's take a couple of parts to finish the report rubric, and we will experience the note that professor Sara educated us regarding the principal report. Likewise, we are taking a shot at the last computer aided design and bill of materials. We relatively done from everything.

Group F4 Marshall Play area.
