

Meeting minutes
Week 7 of spring 2018
Team F4

The team worked on hardware review 2, Also finishing from manufacturing the cart based on our engineering requirements and our customer needs. Also the team received the parts for the track and the team start manufacturing the track, Also we are giving our project the last touches to make it look professional. Improving the website and adding more information on the website to make it professional.

Meeting minutes
03/16/2018/ Week 9
Team F4

On this meeting we were discussing about the last touches on the car which mostly is done we was thing about the best features that we will put for the children and what will fit better for them so we searched for them online and we let Mohammad to be responsible for this part and check some toys store, we ended the meeting by giving every person a thing to be done with.

Meeting minutes
Spring Break week
Team F4

The on spring break have agreed to keep working on our project. We have not started building the track due to limitations and getting proofs from the school that our client is an employee in. 2 days before the spring break is to be starting, the team have received the proofs from the school to which can allow us working on the track. Thus, we decided to stay in spring break.

Meeting minutes
03/28/2018/ Week 11
Team F4

The meeting on this week was to put the final touches on the track and make sure its done with a high quality and good shape, we were talking mostly about the safety of the children that will use the device and we manage a time next week to meet and test the car and the track to make sure that they work perfectly and the safety is 100% sure for these children.
