

Final Presentation/meeting

4/17/2018

Agenda: Team will present findings and current progress on the project

Pre- presentation Agenda: Meet 1hr prior at the Dub to practice presentation

Everyone was present and all technical reports are done.

Dr. Michael Shafer suggestions

- look into low power settings

- if resolution becomes more accurate then consider a patient

Dr. David Willy suggestions

- look into fritzing

- determine what resolution to aim for

- review with client

Future focus.

Finish peer evaluations and begin final CAD package, BILL of Materials, and final report.
