

STAFF MEETING MINUTES #5

Location: Engineering Building, Room # 324

Date: 4/4/2019

Time: 12:35PM – 1:05PM

Facilitator: Jeff Macauley, Edwin Beraud,
Jake Shaw & Will Legrand

Agenda Items

12:30PM – 12:35PM	Team members discussed the client meeting with Professor David Willy. This included the changing focus of the project away from Phase Change Materials and focus on insulation.	Engineering Building, Room # 324
12:35PM – 12:45PM	Team members and Professor Willy discussed heat source ideas, including propane and solar furnace research. Additionally, concerns were expressed about the lack of availability of coal on the reservation as the Peabody mine closes.	Engineering Building, Room # 324
12:45PM – 1:05PM	Team members discussed the future direction of the project, including work in the fall semester. Team members additionally discussed funding for a solar resource, or a physical demonstration of the analytical concepts covered.	Engineering Building, Room # 324

Team Goals

Determine a plan for second semester
