

NPOI Vacuum Manifold Capstone

Team Meeting/ Staff Meeting

15 March 2022/ 3:30 PM / At NPOI

ATTENDEES

Cydney / Wyatt / Alex / Jim Clark

AGENDA

1. Start instillation.

NOTES

- We Started by putting in the brass interfaces and built from there.
- We rated at FDL 6 and FDL 1 and met in the middle where we had to use some strength to compress the bellows to fit in the manifold line.
- We also connected the internal and external cables, tested continuity, and loop them through the manifold.
- We had to tighten all of the wing nuts on the Falange to make sure everything was tight.

ACTION ITEMS

1. Work finishing install tomorrow.
2. Maybe run some tests.

NEXT WEEK'S AGENDA

Meet on site Thursday between 8am and 9am.
