Objective

I am seeking a full-time employment position starting in January so I may gain work experience in the field of mechanical engineering and learn new skills that coincide with my major. Interested in learning anything and everything.

Skills

- Robotics
 - My senior project at NAU revolves around taking a vehicle base and adding a robotic arm to it that is controlled through VR. Additionally, I was a member of the robotics program at my high school for 4 years where I helped to engineer, build, and compete with a robot my team constructed.
- SolidWorks
 - Used solidworks throughout the years i was in college designing and modeling a variety of projects, additionally used SolidWorks as a hobby 3D printing miscellaneous objects.

Work Experience

NAU Campus Dining Bakery

Worked from Sep 2019 - current

Did a lot of heavy lifting and lots of big batches of various foods including brownies, muffin mix making and baking, rice krispy treats, cakes, and bread pudding. Also did miscellaneous tasks as they were needed around the bakery.

UPS Store

Worked from May 2021 - current

I have experience working with customers and how to satisfy them in what they are asking. Additionally I know how to properly pack and ship items to ensure nothing breaks.

Education

Northern Arizona University, Flagstaff, AZ

Working on last semester of schooling

B.S. Mechanical Engineering

Projected graduation is Dec 2023
